# The new Cellion.

**Make the most of your day.**

Welcome to the next generation in hearing aid technology in a smart OneShell design. With its reliable high-capacity lithium-ion power cell, Cellion™ provides up to two days of regular use on a single charge, so you don't need to worry about them running out on you unexpectedly. Plus, inductive charging means total convenience.

## Enjoy life's true sound.

Whether it's an open-plan office, a crowded store or a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Straining to hear voices in these situations is tiring - a fact that even people with normal hearing are familiar with.

Cellion tackles these challenges. Its advanced SpeechMaster function continuously monitors what you are listening to. It focuses automatically on your conversation partner while reducing unwanted voices and background noise at the same time. You hear most clearly what you want to hear. As a result, hearing with Cellion can be even less straining than normal hearing. All day long. In every situation.

Cellion hearing instruments:

# Power up your life.

## Forget about batteries.

Great design isn't just about aesthetics - it's an intelligent blend of form and function. With Cellion's unique OneShell design, we've combined both to engineer another world's first: a lithium-ion hearing aid without charging contacts.

Cellion's rechargeable lithium-ion power cell uses convenient wireless inductive charging technology with no fiddly batteries to replace. Just place your Cellion hearing aids in the charger and the smart electronics take care of the rest.

Take them out of the charger and they automatically turn on for you. And then they just keep going - the only hearing aids with unlimited streaming that last up to two days without recharging. And if you need to top up, a 30-minute recharge will keep you going for another seven hours!

Another masterpiece of design from Signia - a perfect combination of simplicity and performance.

**High capacity power cell**  
Lasts 24 hours with unlimited streaming.

**No battery door**  
Automatic on/off function while charging and no more fiddling with batteries make Cellion the easiest hearing aid to manage.

Cellion

**Charging**  
Cellion is the world's first hearing aid that combines lithium-ion technology with inductive charging.

Cellion's range of natural colors are designed to match a variety of hair and skin tones.

Accessories for Cellion hearing instruments:

# Stay in control.

## Wireless functionality for connected lifestyles.

The ultimate in discreet control: with the touchControl App™\* you can adjust Cellion from your smartphone.

For an even smaller solution, just hang miniPocket™ on your keyring for convenient remote control.

For complete convenience, you can control your Cellion hearing aids and stream your TV or stereo with easyTek™\* and easyTek App™\*.

Your Hearing Care Professional will be happy to advise you on the accessories and which is best for you.
